Modulink

A Sobti Enterprises product

On-site monitoring and control

Connect industrial instruments, soil sensors and irrigation valves to wireless monitoring and control. Indi and Agri share an on-site Base Station with dashboards, history and application Skills.

Modulink Agri

$500 / unit

Up to 3 Watermark soil sensors, a soil-temperature interface and compatible latching irrigation-valve control over LoRa.

Available now. Over one year of battery life.

Product details →

Modulink Indi — LoRa

$500 / unit

Industrial instrument monitoring, analog output and external relay-driver interfaces over LoRa.

Line-powered. Available for customer samples. Battery-powered Indi LoRa is coming soon.

Product details →

Modulink Indi — Wi-Fi

$500 / unit

Industrial instrument monitoring and compatible motor/actuator control over site Wi-Fi.

Line-powered. Available for customer samples.

Product details →

One on-site platform

The Base Station supports Indi and Agri over Wi-Fi and LoRa. Dashboards, history, alerts, user access and API access run on site without a required vendor cloud. Base Station MSRP: $1,000.

CIP Monitoring runs in production at Falcon Water Technologies. Irrigation Intelligence is available now, with integrated irrigation guidance and automated scheduling. Custom workflows are available through engineering.

Pricing and installation

Hardware is a one-time purchase. CIP Monitoring is $20 per terminal per month, billed annually. Other Skills are quoted separately. Engineering assistance is $200/hour.

Sensors, probes, valves, batteries, power supplies, mounting and relay accessories are separate. Cabling, site-network work, travel, shipping and applicable tax are additional.

Self-installation and remote diagnostics are supported. Talk with engineering about accessories, installation assistance and delivery.

In production at Falcon

Falcon Water Technologies in Conroe, Texas, has used Modulink since 2025 for RO membrane-cleaning records, operator alerts and read-only ERP access. Modulink hardware is designed into Falcon’s product line.
